# Apex

Aggregate and cement operations

## Want to improve site productivity?

The saying “time is money” rings true, and an operation can save time and achieve many financial and operational advantages from streamlining manual, tedious processes. Gain back valuable time, reduce costs, attract more customers through faster response and delivery times, increase profits, and outsmart the competition, to name a few.

# 35%+

Reduction to time in plant

## You want to:

Simplify and integrate systems

Improve billing accuracy and speed

Utilize your assets more effectively

Improve communications

## Apex will:

Connect your processes for sales, office, and dispatch

Eliminate billing errors due to dual and manual data entry

Provide constant status into job progress

Deliver visibility that reduces phone calls and ensures data accuracy from quote-to-cash

“

With Apex, we have instant visibility of our assets, including their location and the progress of each job they're assigned.

Chris Eichman  
Vice President  
Midwest Concrete Materials

## Apex

### Lift Bulk Materials Out of the Dark Ages

Apex technology is specific to the needs of bulk materials suppliers and is based on years of industry expertise. Digitize and simplify manual processes allowing personnel to focus on more important tasks. Real-time integration with gate controls and devices, third-party offerings and ERP systems opens the door to a new level of efficiency and data accuracy.

### Streamline Information Across Your Processes

Point-of-sale modules interface directly with the quoting, dispatch, transportation management, and back-office modules to ensure that information flows quickly and accurately.

### Insight into Your Deliveries

Timeliness and accuracy of your delivery process can be enhanced, not only with company-owned vehicles, but third-party as well. Keep trucks on the road and spaced evenly with moving geo-fences on pavers and real-time alerts.

### Connect All the Moving Parts

Advanced scale ticketing software works seamlessly with simple site-automation technologies to deliver impressive improvements in the speed and efficiency of operations.
