

Apex Automation

Get Loads on the Road Faster

Ensure seamless truck throughput with automatic truck recognition, driver kiosks and displays, remote print enclosures, video verification of scale loading, anti-theft modules, wireless loader systems, and more.

- **Improve Productivity and Safety:** Automated vehicle recognition, driver interaction kiosks, display boards, and more. Check in, load, and ticket trucks without interruption or interaction with plant personnel. Keep drivers inside of the trucks and on the road quicker.
- **Expedite the Check In Process:** Automated vehicle recognition via RFID and/or license plate recognition technologies streamline the check in/out and weigh in/out processes.
- **Self-Serve Ticketing & Loadout:** Self-serve kiosks, stop lights, and display boards allow drivers to receive or verify load assignments and direction on where and when to proceed for loading. Remote printer enclosures conveniently deliver tickets to the drivers in the safety of their trucks.
- **Ironclad Proof:** Photo/video verification processes keep drivers in their trucks, eliminate the need for driver signature ticket copies, capture detailed images of each ticketing transaction, and deliver alerts for possible theft situations.

“Apex has been a huge success in automating our aggregate operations and is an important part of our commitment to customer service.”

Allen Bryant | Sr. Software Engineer | Graniterock

With Apex Automation You Will:

- Get trucks on the road quicker
- Mitigate risk of theft and assist with claims
- Improve safety on site
- Streamline communications across your operations
- Improve customer service

Automation Options

- Vehicle Auto ID
- Automatic License Plate Recognition
- Scale Watcher Cameras
- Driver Kiosks
- Remote Printer Enclosure
- Driver Display Boards
- Stop Lights
- Wireless Loader Tablets

Transforming your operations by replacing manual and complex tasks and processes with efficient, scalable, and reliable solutions. Learn more commandalkon.com
